Holly Mackle

Brand Strategy & Visual Identity

The Opportunity

Holly Mackle is a writer, podcaster, former-librarian book-recommender, and all-around force for joy in the world. Holly is at an important inflection point: having built a strong following and collection of products, Holly deserves a clear brand strategy to organize all her efforts, giving her audience a singular hub and touchpoint.

GHOSTSignal loves to help people clarify themselves through strategy and visuals that generate real connection. Through deep listening and targeted design, we help clients map a path to their brand's future. We are honored to offer this proposal, and appreciate the opportunity.

The Scope

What we will do together

01 DISCOVERY

This project begins with understanding: through a guided conversation we discover your hopes and aspirations for the future of your brand. This step forms the foundation for the steps that follow, ensuring we stay authentic to who you are.

DELIVERABLES

- Discovery Report: Who is the Holly Mackle Brand and Where is it Going

02 BRAND STRATEGY

Building on the Discovery step, we develop a Brand Strategy report, detailing the direction and aims of the brand. Here, we codify the role of each of the brand's current platforms, describe the voice of the brand, and recommend steps for future growth.

DELIVERABLES

- Brand Strategy Report: A Map of the future of the brand, a description of the Holly Mackle brand voice to guide writing and messaging across all platforms, recommendations for the role of each platform within the brand.

03 VISUAL IDENTITY

Based on the Discovery and Strategy steps, we develop a cohesive Visual Identity for the overall brand. Including logo, color palette, and fonts, this step develops the entire visual environment for the brand.

DELIVERABLES

- Personal Brand Logo and any submarks
- Color Palette
- Fonts
- Patterns/visual ecosystem

04 WEBSITE + PLATFORM ASSETS

Finally, we apply all the previous work to a new website for the brand. Serving as a hub for all your offerings, the website gives your audience the ease of a singular gathering place from which you communicate. This step also includes visual assets necessary for creating brand consistency across all of your current platforms.

DELIVERABLES

- Five page website, on Squarespace with the following pages
 - Home
 - About
 - Podcast
 - Writing
 - Speaking
- Digital Brand Asset for each existing platform
